

Incoflex PVC Tape

Incoflex PVC Insulation Tape is manufactured with a durable PVC film backing coated with a high-performance pressure-sensitive adhesive. It is designed to provide reliable insulation, protection, and sealing across HVAC, electrical, and general insulation applications. Incoflex PVC tape offers excellent conformability, strong adhesion, and long-term performance under varying temperature and environmental conditions.

Features

- High dielectric strength for safe and effective insulation
- Strong adhesion to insulation surfaces, metals, and plastics
- Excellent flexibility and conformability around bends and joints
- Resistant to moisture, abrasion, and aging
- Easy hand tear with clean, smooth application

Applications

- Electrical cable and wire insulation
- Sealing HVAC insulation joints
- Wrapping rubber foam insulation
- General binding and surface protection
- Line identification and color coding

Product Specification

Properties	Specification	Standards
Backing Thickness	65 micron	ASTM D3652
Total Thickness	110 +/-5 micron	ASTM D3652
Adhesion to steel	20 N/25 inch	ASTM D3330
Tensile Strength	1200 gms/25 inch	ASTM D3759
Elongation	5%	ASTM D3759
Roll Track	10mm	
Temperature Range	-30 to 120	

Standard Sizes

W(mm)	L(mt)	Rolls/Box
50	40	24
75	40	16
100	40	12

Custom sizes can be produced as per customer specifications

STORAGE

Store under normal room temperature and 50% RH in the original packaging.

SHELF LIFE

Use within 12 months
